Millions to Replace Bridges on Delaware

Hundreds of Floodbound People Rescued Along Lehigh River

Easton, Pa.: The Delaware River began to recede about midnight Saturgay and continues to fail rapidly. The Lehigh and the Bushkill are still backed up for miles, and everything along their banks is flooded. It is impossible to estimate the loss or even approximate it, but in Easton and towns up and down the Delaware it will take millions to replace the colors and repair the damage

Russia and Japan Reach Point of Peace or War

A Hair in the Diplomatic Scale One Way or the Other Means Peace or Declaration of Hostilities

Status of Russian-Japan Quarrel.

Russia and Japan act as if either would fight if the other should hold Immovably to the position taken up in the last exchange of communications. This is the actual situation as understood officially from reports received from the German Embassy at St. Petersburg, and the German Legation at Toklo. Yet, this mutual attitude, with hostile preparations by both countries is still regarded as not excluding an honorable arrangement. Neither Government has gone so far that it must fight or be hamilfated, but either Cab inet, by a single step, can put the other in that position. This deficate halance may, of course, he violently disturbed any day, though no ultimatum has yet been thrown on either scale It is believed that war, should if oc cor, would be between Rossia and Japan alone, and that neither Eugland nor France would be involved. Fred evick the Great's remark is being quoted in Berlin as diastrating the present posture of affairs: "Negotiations without weapons behind you are like a musical tone without instruments."

Yokohama: Baron you Rosen the new proceeding between Japan and

from the Russian frontier.

China, has announced that the Man

churian convention has lapsed. The Manchurian convention between Russia and China was signed April 8. 1902, and, according to it, the evacustion of the three Manchurian Provinces was to be carried out in three successive periods of six months from the signing of the convention.

A note from M. Lessar was appended to the convention, declaring that "if the Chinese Government, notwithstanding the assurances given by it, violates any provision of the convention the Russian Government will not hold itself bound by either the terms of the Manchurian agreement or by the declarations previously unde in connection with the matter and will be compelled to repudiate any responsibillity and consequences that might arise therefrom

China was to be permitted to main tain whatever force she thought necessary in Manchuria after the evacuation of that territory. Russia also agreed if Tien-Tsin was restored to the Chinese within the first six months to exacuate New Chwang at the time this restoration was made

Langley Aeroplane An Utter Failure

At No Time Was There a Semblance of Actual Flight

Widewater, Va.: The Co foot, steel built flying machine, the climax of years of exhaustive study in the elforts of Professor Samuel P. Langley. secretary of the Smithsonian Institution, to solve the problem of mechanical flight in midair, was launched Wednesday and the experiment, carefully planned and delayed for months, proved a complete failure.

The immense airship sped rapidly along its 70-foot track, was carried by its own momentum for 100 yards, and then fell gradually into the Potomac River, when it emerged a total wreck.

Professor Charles M. Manley, who had been Professor Langley's chief assistant in the work preliminary to the attempted flight, was on board the aeroplane and escaped with a ducking At no time was there any semblance

of flight, the unitial momentum, the lightness of the machine and the sustaining sourface of the wings furnish ing the conditions which account for the too yard transit of the air-bird from its 60 foot elevation to the water Professor Manley started the motor

which worked well, the revolutions tenching 1,260 a minute. The big machine moved easily giong the To-foot track, in the launching apparatus, and took the air fairly well A five-mile breeze was blowing and

for a moment the muchine stood up well but its failure was immediately apparent II turned makingly down

And before the machine screen the water Professor Manney shut off his motor, which had worked admirably at the mitset.

The macane disappeared beneath the war or fur only memeriarily. The five contrad-shaped Boars, which but growt its simbles, territorized their fencechine almost immediately reappeared. (Goncales) would sheet when they

Tillman Gives His Version of Shooting

Says He Thought Gonzales Wat About to Fire at Him

Lexington S. C.: The examination of James H. Tillman, who went on the stand during the last hour Thursday as a witness in his own behalf, was re sumed Friday. He was asked what impression was made upon him by the editorials written by Mr. Gonzales. He replied that they were intensely bitter, in reply to questions, Tillman said he had been told in a dozen places in South Carolina that he could not come to Columbia and say what he had said on the stump elsewhere about Mr. Gonzales. Also, he said. If had been reported to him that the opera house in Columbia, where he was to speak, was to be packed, and he was not to be let out alive.

Mr. Tillman, giving his version of the shooting said he was walking down from the statehouse after the adjournment of the State Senate, January 15, in company with Senators Talbird and Brown Before reaching the transfer station he said, he noticed Mr Gonzales down the street, looking at him very intently. He said Mr. Gonzales had on an overegal tightly buttoned with hands in his pockets, thumbs science out. Mr Gonzales cut diagonally across in front of him, he said, and the thumb of his right hand. disappeared in his pocket. He said he thought Mr. Conrales was going to draw a weapon, and he fired first, say-

ing: "I got your message." The necessary, he said, referred to the statements reported to him by Wittivesor White and Hölzenbach. These statements were to the offert that tion zales had sant he had made Tillman show the white feather twice before, and would do It again. The defendant said to did not fire a second and as-
